SKILLS

Programming:

- C++
- C#
- HLSL
- GLSL

Graphics:

- Vulkan
- DirectX 11
- Compute Shaders

Engines:

- Unity 6
- Unreal Engine 5
- s&box

Tools:

- Git
- Perforce
- CMake
- NVIDIA Nsight
- RenderDoc
- Blender

LANGUAGES

- Dutch (Native)
- English (Fluent)
- French (Basic)

SUMMARY

C++/C# programmer specializing in Graphics & Engine Programming, with a passion for building systems from the ground up and optimizing them for speed and visual quality. Recent graduate of a Bachelor's in Game Development at Howest, seeking early career positions.

EXPERIENCE

Graphics Programmer

Jun 2026 – Present

AlterEyes – VR/AR game studio

- Iterated on the procedural content generation system to improve output quality and artist usability
- Implemented several gameplay features, core to the project.
- Continued CPU and GPU performance profiling and optimization, using tools such as RenderDoc
- Worked in a professional environment with external and internal colleagues.
- (ongoing position)

Graphics Programmer Intern

Feb 2026 – Jun 2026

AlterEyes – VR/AR game studio

- Designed and built a runtime procedural & interactive content generation system for AR/VR using C#/Unity (from research through implementation) forming a core system the rest of the project was built around.
- Optimized real-time performance using Unity's Job System and Burst Compiler to hit target frame rates.
- Explored GPU rendering techniques (compute shaders, instancing) for scene rendering optimizations.
- Worked in a multidisciplinary team with developers, artists, and designers in an agile, fast-paced studio environment.

Math Refresher Assistant

Sep 2024 & Sep 2025

Howest – Digital Arts & Entertainment

I helped new students refresh their basic math skills before starting their first year at Howest University – Digital Arts & Entertainment.

EDUCATION

Howest Kortrijk, BE

2023 – 2026

Bachelor Digital Arts & Entertainment Game Development

Erasmusatheneum Deinze, BE

2019 – 2023

Mathematics and Sciences

Erasmusatheneum Deinze, BE

2017 – 2019

STEM Sciences

AWARDS & ACHIEVEMENTS

Graduated Suma Cum Laude

2026

Highest honors, Bachelor's degree in Game Development

Math and Science Graduation Award

2023

Given for top academic performance in mathematics and science

VWO Semi-Finalist

2023

Semi-Finalist in the Flanders Math Olympiad 2023
